

YRU - «NEW BEGINNING»

Vinyl, CD & Digital Release: 31th May 2019

You start, turn the hourglass and time runs down to the last grain. You turn the clock again. Everything begins anew. YRU does exactly that, with their third album „New Beginning“ they dare a new beginning and still remain true to themselves: Authentic alternative psychedelic pop rock, thrillingly profound and varied music for young and old.

The musical adventure started in 2006. Two years later they were on Swiss radio and television with „Song for Everyone“ and distributed „Free Hugs“. After two albums, concerts all over Switzerland and abroad, YRU are ready again!
